

# Mental Health: What to know about this benefit

## Did you know 1 in 5 adults battle with Mental Health challenges each year?<sup>1</sup>

This means it's likely you or someone you know may need to find mental health help at some point. Our Teladoc Health plan might offer additional services like meeting with mental health professionals by phone or video. This care is always private because you choose when and where to meet with the therapist or psychiatrist (like at home, parked in your vehicle). These experts help with stress, anxiety, sleep and more so you can care for yourself emotionally. Your mental health deserves as much attention as your physical health. So join the 75% of people using the Teladoc Mental Health benefit who say this service has helped them feel better in just 3 appointments.
